Network & Telecommunication Engineer Network and System Administrator

EXPERIENCE

07/2005 - 04/2007 - **Swissvoice** - Bonneville (France)

Integration and technical support engineer: interface between VAR, corporate customers and our software team. In charge of integration and 2nd/3rd level support of our range of IP phone.

05/2004 - 05/2005 - **gap year.**

World tour including Latin America, New-Zealand, Australia and South East Asia. Personal enrichment, confrontation with different environments, intensive use of English and training of basic Spanish.

01/2003 - 04/2004 - **Hewlett Packard** – EIC - L'Isle d'Abeau (France) - **Silicomp** subcontractor

Integration leader on Compaq telecoms solutions based on Alpha Server (Tru64). Most of the work was done directly at the final customer (Alcatel) site. Installation of a process reducing integration time.

Integration leader for HP Opencall telecom solutions based on series 9000 server (HPUX).

03/2000 - 11/2002 - **Compaq CustomSystems** - Annecy (France) – **Silicomp** subcontractor

* **Telecoms Division**

Study and realisation of Compaq VoiceXML platform using Netcentrex SVI.

Integration and validation of Netcentrex telecoms products including design, realisation and tests reports as well as installation guides (French, English) for Industrial Integration division.

Industrialization of various Compaq telecoms solutions under Tru64 and Windows 2000.

* **Media Division**

Work on **Video On Demand** projects: studies, validation and improvement of a QuickTime streaming solution under Linux and another solution under Windows 2000. Benchmarking of Darwin & Windows Media video servers.

10/1996 - 11/1999 - **ASophia** – Sophia-Antipolis (France)

Training part of the ITII engineer diploma

- **IT manager**

- **Network administrator** (Windows NT4.0 Server)

- Installation and management of the corporate network

- **End of studies project:** Realisation of the company Internet solution (web, ftp and mail servers).
